EXPERIENCED

With 26 years of proven track record and professional experience, the Huatong Group has earned an excellent reputation with a comprehensive range of equipment and services. We are known as one of the leading service providers in various industries such as the oil & petro-chemical, shipping & marine, transportation & logistics, civil engineering & building construction industries and many others.

about **HUATONG INLAND**

Established in 1984, Huatong Inland Transport Service Pte Ltd (herein referred to as HTI) located at Kranji with its own maintenance base, is one of the pioneer subsidiary companies under the umbrella of Huatong Holdings. Its core business activities comprise of the following:

- Supply and Management of Crawler Crane/s
- Lorry Crane Services
- Commercial Vehicle Rental
- Machinery & Conventional Trucking
- Container Trucking & Services
- Heavy Haulage Transportation & Project Cargo Management

Our experienced workforce together with our high level of service standard allows diversification into our industries requirement while concurrently adhering to regulatory requirements as imposed by our Local Authorities such as Statutory Boards, Port, Oil & Gas Industries, Shipping & Forwarding etc.

MACHINERY TRUCKING

Huatong Inland has competent operators and approximately 65 Low Loaders (includes Heavy-Duty Auto Ramp), which are always geared towards readiness to undertake machinery deliveries within the mainland.

PRIME MOVER

Huatong Inland Transport Service has grown in strength to more than 120 Prime Movers varying from a capacity of 60 tons to 250 tons capacity, ensuring that our customers' demands are satisfactorily met.

HEAVY HAULAGE

Our experienced management team also manages our Project Division together with our Heavy Haulage Section (with more than 60 Axle line of Modular Trailer) as a member of this department. Our Project Division undertakes operations such as:

- Heavy Lifting, Erection and Installation
- Heavy Haulage and Transportation
- Project Logistics & Management
- Shipment Cargo & handling

CRAWLER CRANE

Huatong Inland currently a fleet of 60 units of crawler cranes ranging from a load capacity of 50 tons to 300 tons, thus ensuring a diverse range of operational capacity to cater to the different needs of our customers.

CONVENTIONAL TRUCKING

HTI is always ready to undertake conventional cargo delivery regardless of "in/out gauge" inclusive of shipment related handling such as local import/export and/or transshipment.

LORRY CRANE & SELF LOADER

Our existing fleet of Lorry cranes (up to 50 tons capacity) and Self Loaders have become mandatory equipment to our operational division for providing continuous support in our day-to-day operational activities.

COMMITTMENT

At Hua Tiong, we are committed to not only meet, but also to exceed our customers' expectations by continuously improving the quality of our services and achieving greater teamwork through a cohesive team spirit. We are committed and well guided with the achievements and maintenance of the world recognized industry ISO standards, not only for us, but also for the benefit of our customers and the environment.

about **HUATONG (ASIA)**

Huatong (Asia) Pte Ltd was established in March 2005 under the Huatong group of companies – Huatong Holdings. Its business activities are machinery rental and heavy lifting project management that includes civil construction project management. With our modern fleet of mobile cranes and construction machinery teaming up with our competent technicians and operators, Huatong (Asia) is capable of ensuring continuous service quality while safety is never compromised. Huatong Asia promises to continually improve our service standards by gearing toward readiness to service our industries in accordance to regulatory requirements inclusive of the Oil & Petroleum/ Chemical sectors.

MOBILE CRANE

Our competence operational workforce, propelling a fleet of more than 70 units of Mobile Cranes ensures that we are operationally ready to meet the demands of the industries. Our fleet of mobile cranes, ranging from 25 tons to 500 tons capacity, will ensure that the different needs and stringent requirements are sufficiently catered for in accordance with infrastructure development.

HUATONG (ASIA) PARTICIPATION

Huatong (Asia), since inception, with our fleet of equipment and workforce has been actively participating in various projects such as infrastructure, oil & gas industries, shipment handling etc. This also includes project handling in regional countries.

Apart from being a machinery owner, is also involved in several heavy lifting project management for erection & installation on project cargos which include lifting analysis, planning, proposal, engineering design/ calculation etc as well as load out handling.

EXCAVATOR

Huatong Asia also has its own plant & construction machinery that includes range excavators, vibratory soil rollers, bulldozers, and tipper dump trucks. The excavator fleet consists of a fleet ranging from 3 ton mini-excavators to 30 ton excavators of various makes and models. Experienced excavator operators and mechanics are available for hire and repair services.

TIPPER DUMP TRUCK

The tipper dump trucks are another complementary business unit with more than 30 units of 16~18 tons load capacity that mainly provides support to our construction industry.

STRENGTH

With a well-trained workforce of 500 and growing, the company is constantly striving to upgrade and deliver industrial equipment and competent professional service with strong management and staff to provide continuous support for project supervision and management in challenging market conditions. Our organization is fully geared to fulfill the most stringent of our customers' needs and regulatory requirements.

about **HUA KEONG TRADING**

Established in 2009, Hua Keong Trading Pte Ltd is set to fill the gap in the ever growing demands of the towing industry by offering the rental of towing trucks and equipment from our own fleet of tow trucks. We have our own yard located at the main Kranji factory vicinity which also houses our own repair and maintenance workshop.

With an experienced workforce and management staff offering a high level of service standards, we cater to diversified industries whilst also offering complementing support services via the other business units within the Huatong group of companies.

Hua Keong Trading currently has an operational workforce of 15 drivers, together with a fleet of no less than 10 units of tow trucks and equipment (at print time). We operate 24 hours round the clock to ensure that we are readily available to cater to the requirements of our customers.

Hua Keong Trading is able and ready to serve your requirements for any rental or repair of tow trucks and equipment. We ensure that our customers are satisfied by providing professional, efficient and reliable services that will tow all your worries away!
